## **DETAILED ACTION**

### ***Claim Objections***

1. Claim 27 is objected to because of the following informalities: In line 9, "the second semiconductor top" should be replaced with -- a die package top--, as disclosed in the Specification. Appropriate correction is required.
2. Claims 28-42 are objected due to their dependency on objected claim 27.

### ***Allowable Subject Matter***

3. Claims 43-45 are allowed.
4. Claims 27-42 would be allowable if claim 27 is rewritten or amended to overcome the objection set forth in this Office action.
5. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record either singularly or in combination failed to anticipate or render obvious the limitations of having the encapsulation structure top and a top surface of the package being equidistantly from a surface of a module substrate as required by claim 43.

**Conclusion**

6. This application is in condition for allowance except for the following formal matters indicated above in paragraph 1.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
